

Purpose:

We are changing the way we are regulating and inspecting adult social care. To understand more about why, how and when we are changing; and our priorities and principles please look at our consultation on how we propose to regulate, inspect and rate services [link](#).

This PIR is an important element of our new inspection process. We are asking for this information under Regulation 10(3) of the Health and Social Care Act 2008 (Regulated Activities) Regulations 2010. Please provide the information we require using this form. It will help us plan our inspections by asking you to provide us with data, and some written information under the questions:

- Is the service safe?
- Is it effective?
- Is it caring?
- Is it responsive?
- Is it well-led?

This return is being used as a pre-inspection questionnaire and we would like you to fill it in and **return it to us by the 11th July 2014**. We won't tell you in advance when your inspection will be, and the date you receive or return the form will not decide the date we visit your service. The information you include in your return will help inspectors decide on the areas they need to look at during their visit. Some of the content may also be used to inform national reporting. When we use information in this way, it won't be attributed to any provider. You might find it helpful to use the return as part of your quality assurance process and as a way of understanding and reviewing how well you are meeting the five 'key questions'.

Completing the return:

All Returns

- The PIR is arranged under the five key question areas (safe, effective, caring, responsive and well-led).
- There is a guidance document to help you with filling in the content of the form. Please use 'How to complete the provider information return (PIR)' document to help you complete each section [link](#).
- Further information about the five questions can be found in the 'Adult social care: hospice services provider handbook' [link](#) and appendices [link](#). It is recommended that you read this to have a fuller understanding of what the five questions mean, and what we would like you to focus on in your response.
- When we refer to 'service' in this form, we mean hospices and hospice at home that provide care at the location or in the community for adults or children.
- When we refer to 'staff' in this form, we mean medical, nursing and care staff involved in delivering care.
- You should make your answers as concise and clear as possible. We encourage you to use bullet points to help you do this.
- You should include examples of evidence to support what you have written in your responses.
- Each free text question within the document has a limit of 2,500 characters. You will only be notified on completion if you have gone over this limit. If this happens, please review your answer to ensure it fits within the character limit.
- The questions in the data sections ask you for simple responses to questions predominantly in the form of a number, a date or a yes/no confirmation.
- Please do not send attachments with the PIR. If we need further information, we will contact you.
- There are 'evaluation questions' at the end of the PIR. We would very much like you to answer these questions as fully as possible.
- Once you have completed and returned the form, we may contact you to ask further questions and clarify and provide further detail.
- We will look at all the responses we receive and use the information to develop the final version of our PIR.

Online Return (web version)

- The PIR can be saved by clicking the Save button located at the bottom of the return. Once you have done this it will be saved online (you will be sent an email with a link to the saved return).
- You must complete and submit the PIR **before** the deadline date otherwise the information you have entered previously will be lost.
- Some questions have guidance to help you understand what we want you to tell us. You can access the guidance by clicking on the (?) next to a question.
- Some questions are mandatory, these are shown by a * at the end of a question.

Offline Return (Adobe PDF version)

- Please save the PIR on your computer by using the 'file > save as' function before starting to enter information.
 - Save the document regularly to ensure you do not lose the information you have entered.
 - You can use the 'tab' key to move between the questions.
 - Once you have completed the PIR, please submit it by clicking on the submit button which is located at the bottom of the PIR.
 - Some questions have guidance to help you understand what we want you to tell us. You can access the guidance by hovering over the response fields for each question.
 - Some questions are mandatory, these are shown by the entry fields being highlighted in red. If you cannot see this, please click on the 'Highlight Existing Fields' button in the top right corner of the browser window.
 - All date questions require the response in DD/MM/YYYY format.
 - Please put N/A in any mandatory questions that follow on from a question that you are not required to fill in.
